

Logo — canonical kit (D-31)

The commissioned "Option 1" identity (dsoares · daniela.soares.design), traced to clean vector. The "O" is a keyhole ring with a coral smile beneath it — keyhole + face. This is what the site ships; full lockup + standalone mark shown across the brand backgrounds.

The logo consists of the word "LOFTZ" in a bold, sans-serif font. The letter "O" is replaced by a stylized keyhole ring, and a small coral-colored arc is positioned directly beneath the "O", resembling a smile.
