

## Palette options

The same home layout under four palettes. **Teal + Coral ships** (locked, D-29) and is shown first as the baseline; the other three are alternatives for comparison only. Choosing one is optional — this artefact does not change the site.

**Note.** Review-only. Each mock reuses the shipped layout (header · hero · value props · footer) with the palette tokens swapped. The live site remains Teal + Coral. If you prefer an alternative, it becomes a token change in `globals.css` — no structural work.
